

NOW INTEGRATES

FOR ONLINE TICKETING AND EVENT REGISTRATION

What is ShowClix?

ShowClix is a Pittsburgh, PA based event search engine and online ticketing company created to support nonprofits that have ticketed events and/or collect fees online for their events. ShowClix provides an easy, affordable way for you to promote your events and sell tickets or collect fees online, by telephone, and even at the event through point of sale to your attendees. Your constituents can also search for, track and share your events with others on www.showclix.com.

RiverSong Festival

Fri. Jul 17, 2009 at 12:00pm (66 days away)

How does ShowClix work with DonorPro?

That's the best part. When someone purchases a ticket on your Showclix event page, that purchase is automatically processed and data automatically sent to your DonorPro database. That means for every constituent that buys a ticket or pays to attend your event in ShowClix, the same constituent is shown as registering and paying in DonorPro. It's that simple. This integration provides powerful data at your fingertips in your DonorPro database. You can track historical buying patterns for your constituents. You can measure the success of each event. You can use this information to make strategic decisions about upcoming events and for creating new events.

How much does ShowClix Cost?

There is a very modest upfront set-up fee for adding ShowClix integration to your DonorPro Event Management Module and then a small monthly fee for ongoing access. Then, your event attendees or ticket buyers will pay a small transaction fee to ShowClix for each purchase. We would be happy to provide you with a price quote and a fee schedule. For additional information, please email us at donorpro@towercare.com or call us toll free at 866-935-8281, extension 228.
